**Subject:** Email Searches within Microsoft Outlook

Good Afternoon,

The agency has become aware of problems with the search function within Microsoft Outlook (email attached below). While Headquarters is working on a more detailed guidance to follow early next week, we are working with ORC to find out how many current open FOIA's require Microsoft Outlook email searches.

The attached spreadsheet identifies all current open FOIA requests. **Please forward this email to individuals in your division who are responding to these requests and ask that they contact me for further instructions if their response involves searching Outlook for correspondence.**

Let me know if you have additional questions.
